

IBPS SO Previous Year Papers

General Instructions:

1. This paper consists of **150 questions** divided into 3 sections: English Language (45 Qs), Reasoning Ability (40 Qs), and Quantitative Aptitude (65 Qs).
2. Each question carries **1 mark**. There is a negative marking of **0.25 marks** for each wrong answer.
3. There is a **sectional time limit**; however, within a section, candidates may attempt questions in any order.
4. Use of calculators or any electronic device is strictly prohibited.
5. Rough work must be done only in the space provided.

SECTION I — ENGLISH LANGUAGE (Questions 1–45) Max. Marks: 45

Directions (1–10): Read the following passage carefully and answer the questions given below it.

The digital revolution in banking has fundamentally altered the way financial services are delivered and consumed across the globe. Prior to the widespread adoption of internet banking, customers were required to visit physical branches to carry out even the most routine transactions. The emergence of mobile banking applications has drastically _____ this dynamic, enabling customers to transfer funds, pay utility bills, invest in mutual funds, and access credit facilities from the comfort of their homes. The Reserve Bank of India has been at the forefront of regulating this technological transformation through its framework of guidelines, mandating robust cybersecurity protocols and customer data protection norms. Critics, however, argue that rapid digitalisation has widened the financial exclusion gap, as a significant section of the rural population still lacks access to reliable internet connectivity and digital literacy. The challenge for policymakers lies in ensuring that the pace of innovation does not outrun the pace of inclusion. The Jan Dhan-Aadhaar-Mobile (JAM) trinity has been lauded as a transformative mechanism that bridges this divide by linking bank accounts, biometric identity, and mobile numbers. Nevertheless, the **sustainability** of digital banking growth depends on the ability of banks to fortify their systems against rising cyber threats, including phishing attacks, identity theft, and fraudulent transactions. A proactive and **inclusive** approach, combining technological advancement with grassroots-level financial literacy programmes, remains the most viable path forward.

Q1. According to the passage, what has been the primary impact of mobile banking applications?

- (a) They eliminated the need for physical bank branches entirely.
- (b) They enabled customers to perform routine banking tasks remotely.
- (c) They replaced the role of the Reserve Bank of India in regulation.
- (d) They increased cybersecurity risks beyond manageable levels.
- (e) They made mutual fund investment mandatory for account holders.

Q2. Which of the following best describes the concern raised by critics regarding digitalisation?

- (a) Banks are failing to implement RBI guidelines on cybersecurity.
- (b) Rapid digitalisation may deepen financial exclusion in rural areas.
- (c) The JAM trinity has failed to link bank accounts effectively.
- (d) Digital banking is too expensive for middle-income customers.
- (e) Mobile banking apps are poorly designed for senior citizens.

Q3. What does the author suggest as the most viable path forward for digital banking?

- (a) Restricting digital banking to urban areas where connectivity is better.
- (b) Slowing the pace of technological innovation in the banking sector.
- (c) Combining technological growth with financial literacy at the grassroots.
- (d) Mandating all rural residents to obtain smartphones by a fixed deadline.
- (e) Transferring regulatory responsibility from RBI to state governments.

Q4. What does the phrase 'outrun the pace of inclusion' most likely imply in the context of the passage?

- (a) Innovation moves slower than policies designed for financial inclusion.
- (b) Technology advances faster than efforts to bring people into the financial system.
- (c) Rural residents outpace urban counterparts in adopting digital banking.
- (d) RBI guidelines are more progressive than the technology currently available.
- (e) Financial exclusion is reducing at a rate faster than digital adoption.

Q5. Which of the following statements is NOT supported by the passage?

- (a) Mobile banking allows customers to access credit from home.
- (b) The JAM trinity links bank accounts, biometric identity, and mobile numbers.
- (c) Cyber threats such as phishing and identity theft are on the rise.
- (d) The RBI has prescribed guidelines on cybersecurity for digital banking.
- (e) Digital banking has fully resolved the problem of financial exclusion.

Q6. The word 'sustainability' as used in the passage most nearly means:

- (a) Profitability
- (b) Long-term viability
- (c) Environmental balance
- (d) Immediate growth
- (e) Technological superiority

Q7. Choose the most suitable word for the blank in the passage:

- (a) weakened
- (b) transformed
- (c) ignored
- (d) replicated
- (e) terminated

Q8. Which of the following statements with reference to the JAM trinity is/are correct?

- (a) It links mobile numbers with biometric identity only.
- (b) It has been criticised as an ineffective policy measure.
- (c) It is described as a transformative mechanism that bridges the financial divide.
- (d) It was introduced by the Reserve Bank of India as a cybersecurity tool.
- (e) It mandates physical verification of all digital banking customers.

Q9. The word 'inclusive' as highlighted in the passage is closest in meaning to:

- (a) Exclusive
- (b) Selective
- (c) Comprehensive
- (d) Marginalised
- (e) Restrictive

Q10. The tone of the passage can best be described as:

- (a) Alarmist and entirely pessimistic about digital banking.
- (b) Analytical and balanced, identifying both opportunities and challenges.
- (c) Promotional and biased in favour of private sector banks.
- (d) Satirical and dismissive of RBI's regulatory framework.
- (e) Overly optimistic, ignoring the risks of digitalisation.

Directions (11–20): Read the following passage carefully and answer the given questions based on the information provided in the passage.

Green bonds represent a significant innovation in global capital markets, designed to channel investment specifically towards environmentally beneficial projects. These instruments function similarly to conventional bonds — an issuer borrows capital from investors and commits to repaying the principal with interest over a specified tenure — but with the _____ (I) _____ condition that the proceeds are exclusively utilised for green projects such as renewable energy, energy efficiency upgrades, sustainable water management, and clean transportation infrastructure. The Securities and Exchange Board of India (SEBI) has issued detailed guidelines **governing** the issuance of green bonds in India, requiring issuers to maintain transparency through independent verification, periodic reporting, and robust disclosure norms. Internationally, the Green Bond Principles developed by the International Capital Market Association (ICMA) serve as the **benchmark** framework for green bond issuances. India has emerged as one of the fastest-growing green bond markets in Asia, with both public sector undertakings and private corporations actively participating. However, a concern that continues to shadow the market is 'greenwashing' — the practice of **designating** bonds as green without genuinely committing the proceeds to environmentally sustainable projects. Regulators globally are strengthening disclosure requirements and introducing penalty frameworks to deter such practices. Ultimately, the success of green bonds as a sustainable finance instrument depends on the credibility of the ecosystem — transparent issuers, diligent verifiers, and informed investors — working together towards a low-carbon economy.

Q11. What, according to the author, does the term 'green bond' imply?

- (a) A bond issued exclusively by government entities for infrastructure projects.
- (b) A bond that offers higher interest rates to environmentally conscious investors.
- (c) A bond whose proceeds are exclusively utilised for environmentally beneficial projects.
- (d) A bond that exempts issuers from disclosing utilisation of funds.
- (e) A bond designed to finance agricultural development in rural areas.

Q12. What role does SEBI play in the context of green bonds, as described in the passage?

- (a) SEBI develops the international benchmark known as Green Bond Principles.
- (b) SEBI restricts foreign investors from purchasing Indian green bonds.
- (c) SEBI issues guidelines requiring transparency, verification, and disclosure.
- (d) SEBI directly invests in green bond projects to ensure fund utilisation.
- (e) SEBI exempts public sector undertakings from complying with green bond norms.

Q13. Which of the following statements signifies 'greenwashing', as the passage suggests?

- (a) Issuing bonds with proceeds directed entirely towards renewable energy.
- (b) Labelling bonds as green without genuinely using funds for eco-friendly projects.
- (c) Restricting green bond issuance to only international investors.
- (d) Adopting ICMA's Green Bond Principles for domestic bond markets.
- (e) Mandating third-party verification for all bond issuances globally.

Q14. Which of the following statements with reference to India's green bond market is/are correct?

- (a) India is the largest green bond market globally, surpassing China.
- (b) Only public sector undertakings are allowed to issue green bonds in India.
- (c) India has emerged as one of the fastest-growing green bond markets in Asia.
- (d) Both (a) and (b)
- (e) Both (b) and (c)

Q15. Choose the most appropriate antonym of the word 'governing', as highlighted in the given passage.

- (a) Regulating
- (b) Controlling
- (c) Ignoring
- (d) Mandating
- (e) Directing

Q16. Choose the most appropriate synonym of the word 'benchmark', as highlighted in the given passage.

- (a) Standard
- (b) Obstacle
- (c) Experiment
- (d) Deviation
- (e) Barrier

Q17. Which of the following statements with reference to green bond issuers is/are correct?

- (a) Issuers must commit to repaying principal with interest over a specified tenure.
- (b) Issuers are not required to disclose the utilisation of green bond proceeds.
- (c) Domestic issuers in India bear no penalty for greenwashing practices.
- (d) Only (b) and (c)
- (e) Both (a) and (c)

Q18. Choose the most appropriate synonym of the word 'designating', as highlighted in the given passage.

- (a) Labelling
- (b) Abandoning
- (c) Erasing
- (d) Contesting
- (e) Distributing

Q19. Choose the most appropriate antonym of the word 'credibility', as highlighted in the passage.

- (a) Authenticity
- (b) Transparency
- (c) Dubiety
- (d) Reputation
- (e) Reliability

Q20. Choose the most appropriate filler from the following words to fill in the blank (I), as highlighted in the given passage.

- (a) optional
- (b) additional
- (c) fundamental
- (d) temporary
- (e) arbitrary

Directions (21–25): Each question below has two sentences with blanks, indicating that something has been omitted. Find out which of the words from the options can be used to fill up the blanks in both sentences to make them meaningful.

Q21. (I) The government decided to _____ the old tax regime with immediate effect. (II) Banks are required to _____ non-performing assets from their balance sheets periodically.

- (a) retain
- (b) abolish
- (c) preserve
- (d) include
- (e) append

Q22. (I) The new monetary policy is more _____ than the previous one in controlling inflation. (II) The auditors gave a _____ report on the company's financial disclosures.

- (a) lenient
- (b) precise
- (c) vague
- (d) ambiguous
- (e) radical

Q23. (I) The merger is expected to _____ the financial burden on both companies. (II) Authorities are working to _____ the pressure on overburdened cooperative banks.

- (a) exacerbate
- (b) amplify
- (c) alleviate
- (d) eliminate
- (e) replicate

Q24. (I) The troops were ordered to _____ from the contested financial district. (II) The CEO decided to _____ from his position following the audit findings.

- (a) advance
- (b) retreat
- (c) expand
- (d) consolidate
- (e) merge

Q25. (I) Economists have _____ the theory that low interest rates spur consumer spending. (II) The court ruling _____ the bank's claim to the disputed collateral.

- (a) refuted
- (b) corroborated
- (c) ignored
- (d) misrepresented
- (e) complicated

Directions (26–30): Read each sentence to find out whether there is any grammatical or idiomatic error in it. The error, if any, will be in one part of the sentence. The corresponding letter of that part is the answer. If the given sentence is grammatically and contextually correct, choose option 'No error' as your answer. (Ignore errors of punctuation, if any.)

Q26. The board of directors have (A)/ unanimously agreed to (B)/ defer the dividend declaration (C)/ until the next financial quarter (D)/ No error (E).

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Q27. Neither the branch manager nor (A)/ the relationship officers was (B)/ present at the compliance review (C)/ conducted by the RBI inspectors (D)/ No error (E).

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Q28. Several cultures across Asia has (A)/ adopted the Western model (B)/ of digital payments (C)/ over traditional barter systems (D).

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Q29. The judicious allocation of (A)/ capital reserves ensure even (B)/ greater liquidity buffers (C)/ during periods of economic stress (D)/ No error (E).

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Q30. The finance minister advised that (A)/ it was time to (B)/ switch to a rules-based (C)/ fiscal consolidation framework (D)/ No error (E).

- (a) A
- (b) B
- (c) C
- (d) D
- (e) No error

Directions (31–35): In the following passage there are blanks, each of which has been denoted by letters. For each blank, five options are given. Choose the most appropriate word from the options that fits the blank appropriately.

Non-performing assets (NPAs) have emerged as the most ____ (A) ____ challenge facing the Indian banking sector. The ____ (B) ____ accumulation of bad loans has forced regulators to demand higher provisioning norms from banks. There are other systemic risks that could ____ (C) ____ the entire credit ecosystem. With the lines between formal and informal lending blurring rapidly, every financial institution, from large commercial banks to small finance banks, would become extremely ____ (D) ____ to contagion effects from unregulated shadow banking entities. With fiscal risks capable of undermining India's sovereign credit rating, a ____ (E) ____ insolvency and bankruptcy framework remains the need of the hour.

Q31. Which of the following words will fit in the given blank (A)?

- (a) negligible
- (b) peripheral
- (c) predominant
- (d) transient
- (e) hypothetical

Q32. Which of the following words will fit in the given blank (B)?

- (a) beneficial
- (b) perpetrators
- (c) unchecked
- (d) desirable
- (e) insignificant

Q33. Which of the following words will fit in the given blank (C)?

- (a) strengthen
- (b) rejuvenate
- (c) infect
- (d) stabilise
- (e) recommend

Q34. Which of the following words will fit in the given blank (D)?

- (a) immune
- (b) resistant
- (c) indifferent
- (d) vulnerable
- (e) protected

Q35. Which of the following words will fit in the given blank (E)?

- (a) biased
- (b) fragmented
- (c) narrow
- (d) comprehensive
- (e) temporary

Directions (36–40): In each of the questions given below, four words have been highlighted. These four words may or may not have been placed in their correct positions. The sentence is then followed by options with the correct combination of words that should replace each other in order to make the sentence grammatically and contextually correct. Find the correct combination. If the sentence is correct as it is, select option (e) as your choice.

Q36. Several banks have catalysed (A) their retail lending portfolios to adopted (B) digital-first strategies (C) for their businesses (D).

- (a) B-D & A-C
- (b) A-C
- (c) A-D & B-C
- (d) A-B & C-D
- (e) No replacement required

Q37. The dependent (A) of an institution's acumen (B) is its efficacy (C) on the leadership (D) of its people.

- (a) B-D
- (b) A-B
- (c) A-D & B-C
- (d) A-C & B-D
- (e) No replacement required

Q38. According to the evidence (A) presented, the fraudster was not present (B) at the branch where the alleged (C) transaction occurred (D).

- (a) B-D
- (b) A-B
- (c) A-D & B-C
- (d) A-B & C-D
- (e) No replacement required

Q39. It is imperative (A) to implemented (B) that well-designed and remember (C) credit risk models can make a difference (D).

- (a) B-D
- (b) A-B
- (c) B-C
- (d) A-B & C-D
- (e) No replacement required

Q40. What matters (A) to the common (B) depositor most (C) is the safety (D) of their savings.

- (a) A-D & B-C
- (b) A-B
- (c) B-C
- (d) A-B & C-D
- (e) No replacement required

Directions (41–45): In each question a word is given, corresponding to it three sentences are given. Choose the correct sentence(s) that has/have the correct usage of the word.

Q41. Moratorium (A) The RBI announced a moratorium on loan repayments for distressed borrowers. (B) Banks are required to moratorium their non-performing loan portfolios quarterly. (C) The government placed a moratorium on new infrastructure projects pending environmental clearance.

- (a) Only (A)
- (b) Only (B)
- (c) Only (C)
- (d) Only (A) and (C)
- (e) Only (A) and (B)

Q42. Precipitate (A) Unrestrained credit expansion can precipitate a systemic banking crisis. (B) The committee voted to precipitate the new lending norms across all branches. (C) A sudden depreciation of the rupee may precipitate capital outflows.

- (a) Only (A)
- (b) Only (B) and (C)
- (c) Only (C)
- (d) Only (A) and (C)
- (e) Only (A) and (B)

Q43. Leverage (A) The startup decided to leverage digital platforms to reach rural customers. (B) Most of us leverage wheat and rice as leverage foods for daily sustenance. (C) Excess leverage in financial institutions magnifies systemic risk.

- (a) Only (A)
- (b) Only (B)
- (c) Only (C)
- (d) Only (A) and (C)
- (e) Only (A) and (B)

Q44. Liquidate (A) The insolvent firm was ordered to liquidate its assets to repay creditors. (B) The bank decided to liquidate its government securities portfolio before the rate hike. (C) Investors planning to liquidate advantage of falling equity prices.

- (a) Only (A)
- (b) Only (B)
- (c) Only (C)
- (d) Only (A) and (B)
- (e) Only (A) and (C)

Q45. Empower (A) The Jan Dhan scheme was designed to empower unbanked citizens with basic financial services. **(B)** The workers seemed to empower their supervisor by constantly questioning his authority. **(C)** Several districts were empowered with new rural credit dispensation programmes.

- (a) Only (A)
- (b) Only (A) and (B)
- (c) Only (B)
- (d) Only (B) and (C)
- (e) Only (A) and (C)

SECTION II — REASONING ABILITY (Questions 46–85) Max. Marks: 40

Directions (46–50): Study the following information carefully and answer the questions given below. Seven boxes — A, B, C, D, E, F and G — are placed one above the other in a stack. Each box is of one of three colours: Red, Blue and Yellow. At least two boxes are of each colour. Box G is placed at the top. Box C is placed immediately below Box G. Box A is placed exactly three positions below Box G. The Red boxes are placed at even-numbered positions (counting from bottom). Box D is placed immediately above Box F. Box E is placed between Box B and Box D (not necessarily adjacent). Box B is placed at the bottommost position. The Yellow boxes are adjacent to each other. Box D is of Blue colour. Box A is of Red colour.

Q46. Which box is placed at the 4th position from the bottom?

- (a) Box A
- (b) Box C
- (c) Box E
- (d) Box F
- (e) Box D

Q47. Which of the following statements is/are true?

- (a) Box B is of Yellow colour.
- (b) Box F is placed immediately below Box E.
- (c) Box G is placed at position 7 from the bottom.
- (d) Both (a) and (c)
- (e) All (a), (b) and (c)

Q48. Which among the following combination of box and colour is correct?

- (a) Box C – Yellow
- (b) Box G – Red
- (c) Box B – Blue
- (d) Box F – Yellow
- (e) None of these

Q49. How many boxes are kept between Box A and Box C?

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None

Q50. Which among the following colour does Box E have?

- (a) Red
- (b) Blue
- (c) Yellow
- (d) Either Red or Blue
- (e) Either Yellow or Blue

Directions (51–55): In each of the questions below, some statements are given followed by two conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follow(s) from the given statements.

Q51. Statements: All Loans are Assets. Only a few Assets are Investments. No Investments are Risks.
Conclusions: I. Some Loans are Investments. II. No Assets are Risks is a possibility.

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Q52. Statements: All Banks are Lenders. Only Lenders are Creditors. At most Lenders are Trustees. 100% Trustees are Fiduciaries. **Conclusions:** I. No Creditors are Fiduciaries. II. Some Lenders are Fiduciaries.

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Q53. Statements: All Deposits are Funds. Each Fund is Capital. No Capital is Liability. **Conclusions:** I. No Deposit is Liability. II. Some Funds can be Liability.

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Q54. Statements: Only a few Bonds are Securities. At least Securities are Derivatives. Some Derivatives are not Currencies. **Conclusions:** I. All Bonds can be Securities. II. Some Securities are not Currencies.

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Q55. Statements: All Profits are Returns. Some Returns are Dividends. Only a few Dividends are Yields. No Yields are Losses. **Conclusions:** I. Some Profits are Dividends. II. No Returns are Losses is a possibility.

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Directions (56–60): Study the following information carefully and answer the questions given below. A certain number of persons sit in a linear row and all of them face north. Five persons sit between P and Q. Q is the only neighbour of R. As many persons sit between Q and R as between R and S. T sits third to the left of S. More than one person sits between P and T. V sits exactly between T and U. Four persons sit between S and V. The number of persons to the right of Q is two less than the number of persons to the left of U. W sits second from one of the ends.

Q56. How many persons sit in the row?

- (a) 17
- (b) 19
- (c) 21
- (d) 20
- (e) 18

Q57. Who among the following person sits fifth to the right of W?

- (a) S
- (b) T
- (c) V
- (d) R
- (e) P

Q58. How many persons sit between P and V?

- (a) Seven
- (b) Eight
- (c) Nine
- (d) Six
- (e) More than nine

Q59. Which of the following statement is true?

- (a) Q sits to the left of W.
- (b) More than one person sits between V and W.
- (c) P sits sixth from the right end.
- (d) Four persons sit to the left of T.
- (e) None is true.

Q60. If X sits second to the left of R, then what will be the difference between the number of persons sitting to the right of X and the number of persons sitting to the left of S?

- (a) 3
- (b) 4
- (c) 2
- (d) 6
- (e) 5

Directions (61–65): Each question below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both statements and answer.

Q61. Eight persons sit around a circular table. Four face the centre; four face outward. Who sits immediately to the right of M? Statement I: Two persons sit between M and N. One person sits between N and K. L and J sit adjacent to each other. One person sits between J and N. Statement II: Two persons sit between N and L. K sits opposite to L. M does not sit at the corner. One person sits between J and P. N sits immediately left of M.

- (a) If data in statement I alone is sufficient but statement II alone is not.
- (b) If data in both statements I and II together are required.
- (c) If data either in statement I alone or in statement II alone is sufficient.
- (d) If data in statement II alone is sufficient but statement I alone is not.
- (e) If data in both statements I and II together are not sufficient.

Q62. Six persons attend a compliance workshop on different days of the same week starting from Monday. Who attends the workshop on Wednesday? Statement I: Two persons attend between A and B. A attends on Monday or Friday. C does not attend on Saturday. One person attends between C and D. Statement II: E attends just before F. Two persons attend between D and E. G attends after B and before A.

- (a) If data in statement I alone is sufficient but statement II alone is not.
- (b) If data in both statements I and II together are required.
- (c) If data either in statement I alone or in statement II alone is sufficient.
- (d) If data in statement II alone is sufficient but statement I alone is not.
- (e) If data in both statements I and II together are not sufficient.

Q63. Five persons — P, Q, R, S and T — invest in five different schemes — MF, FD, RD, PPF and NPS — but not necessarily in the same order. Who invests in PPF? Statement I: P does not invest in MF. Q does not invest in FD and RD. R does not invest in NPS. S does not invest in PPF. Statement II: T does not invest in PPF and NPS. P invests in RD. Q does not invest in MF. S invests in NPS.

- (a) If data in statement I alone is sufficient but statement II alone is not.
- (b) If data in both statements I and II together are required.
- (c) If data either in statement I alone or in statement II alone is sufficient.
- (d) If data in statement II alone is sufficient but statement I alone is not.
- (e) If data in both statements I and II together are not sufficient.

Q64. Eight persons — A to H — sit around a circular table, all facing the centre. Who sits opposite to C? Statement I: Two persons sit between A and B. D sits immediately left of B. Two persons sit between D and E. Statement II: F and G sit adjacent to each other. One person sits between G and H. E does not sit adjacent to A and H.

- (a) If data in statement I alone is sufficient but statement II alone is not.
- (b) If data in both statements I and II together are required.
- (c) If data either in statement I alone or in statement II alone is sufficient.
- (d) If data in statement II alone is sufficient but statement I alone is not.
- (e) If data in both statements I and II together are not sufficient.

Q65. Seven persons — A to G — sit in a row facing north. Who sits immediately to the right of D? Statement I: No one sits to the right of A. Two persons sit between A and E. One person sits between E and B. Statement II: Two persons sit between E and the person who sits immediately to the right of A. One person sits between A and C. F sits third to the right of C.

- (a) If data in statement I alone is sufficient but statement II alone is not.
- (b) If data in both statements I and II together are required.
- (c) If data either in statement I alone or in statement II alone is sufficient.
- (d) If data in statement II alone is sufficient but statement I alone is not.
- (e) If data in both statements I and II together are not sufficient.

Directions (66–70): Study the following information carefully and answer the given questions. Point A is 8 m north of Point B. Point C is 12 m east of Point B. Point D is 6 m south of Point C. Point E is 4 m west of Point D. Point F is 10 m north of Point E. Point G is 7 m west of Point A.

Q66. If Point H is 9 m east of Point A, then Point D will be how far and in which direction from Point H?

- (a) 5 m, South
- (b) 5 m, North
- (c) 7 m, South
- (d) 7 m, North
- (e) 5 m, East

Q67. Point F is in which direction with respect to Point B?

- (a) North-west
- (b) North
- (c) South-east
- (d) North-east
- (e) East

Q68. If Point I is 6 m south of Point G, then Point B will be how far and in which direction from Point I?

- (a) 5 m, South
- (b) 5 m, East
- (c) 7 m, East
- (d) 6 m, North
- (e) 7 m, South

Q69. Point E is in which direction with respect to Point A?

- (a) South-east
- (b) South
- (c) North-west
- (d) South-west
- (e) West

Q70. What is the total distance from Point G to Point F via Point A, B, C, D and E?

- (a) 47 m
- (b) 54 m
- (c) 61 m
- (d) 49 m
- (e) 52 m

Directions (71–75): Answer the following questions based on the information given below. Eight persons — A, B, C, D, P, Q, R and S — sit around a circular table facing the centre. Some are men; some are women. Not more than two persons of the same gender sit adjacent. Q sits 2nd to the right of A; they are of different genders. One person sits between Q and R; that person is not a woman. A man sits 2nd to the right of R. P sits opposite to Q; both are of the same gender. D is an immediate neighbour of both P and A. Immediate neighbours of Q are of the same gender. S sits opposite to one of the men. None of the immediate neighbours of B are of the opposite gender.

Q71. Which of the following statements is true as per the final arrangement?

- (a) B is a woman.
- (b) D sits to the immediate right of Q.
- (c) D sits opposite to A.
- (d) P sits to the immediate right of B.
- (e) P is a man.

Q72. Who among the following sits to the immediate left of S?

- (a) B
- (b) R
- (c) D
- (d) P
- (e) Q

Q73. What is the position of D with respect to C?

- (a) 3rd to the right
- (b) 2nd to the right
- (c) 3rd to the left
- (d) 4th to the left
- (e) 2nd to the left

Q74. Which of the following pairs of persons are of the same gender?

- (a) A and D
- (b) Q and D
- (c) P and B
- (d) C and S
- (e) R and P

Q75. Four of the following five are alike in a certain way and thus form a group. Who among the following does NOT belong to that group?

- (a) B
- (b) R
- (c) D
- (d) P
- (e) C

Directions (76–78): In this question, relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statement and select the appropriate answer.

Q76. Statements: $J > K = L \leq M, N > L \geq O, O < P = Q$ **Conclusions:** I. $Q > K$ II. $P < J$

- (a) If only conclusion I is true
- (b) If only conclusion II is true
- (c) If either conclusion I or II is true
- (d) If neither conclusion I nor II is true
- (e) If both conclusions I and II are true

Q77. Statements: $60 > 25 = 40, 120 \geq 60 < 80$ **Conclusions:** I. $80 > 40$ II. $120 < 40$

- (a) If only conclusion I is true
- (b) If only conclusion II is true
- (c) If either conclusion I or II is true
- (d) If neither conclusion I nor II is true
- (e) If both conclusions I and II are true

Q78. Statements: $@ > \# = \& \leq \%, \$ > \& \geq \wedge < ! = *$ **Conclusions:** I. $\$ > \#$ II. $@ < *$

- (a) If only conclusion I is true
- (b) If only conclusion II is true
- (c) If either conclusion I or II is true
- (d) If neither conclusion I nor II is true
- (e) If both conclusions I and II are true

Directions (79–81): Study the following information carefully and answer the questions given below. In a certain code language: 'Capital market trade growth' is coded as 'bx dq mf rk' 'Market rate fund liquidity' is coded as 'dq zp hn rw' 'Capital fund credit policy' is coded as 'bx hn cu pj' 'Trade credit interest rate' is coded as 'mf cu lt zp'

Q79. What may be the code for 'Liquidity'?

- (a) rw
- (b) Either rw or hn
- (c) hn
- (d) zp
- (e) None of these

Q80. What is the code for 'Capital'?

- (a) rk
- (b) bx
- (c) mf
- (d) pj
- (e) None of these

Q81. If 'Interest policy reform growth' is coded as 'lt pj vn rk', then what may be the code for 'Capital market interest reform'?

- (a) zp mf cu vn
- (b) bx dq lt vn
- (c) bx hn cu pj
- (d) mf cu lt zp
- (e) None of these

Directions (82–85): Answer the miscellaneous reasoning questions given below.

Q82. How many such pairs of letters are there in the word 'COMPLIANCE', each of which has as many letters between them as they have in the English alphabet (Both in forward and backward directions)?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) None of these

Q83. If we form a four-letter meaningful word by using the 1st, 4th, 5th and 8th letter from the left end of the word 'MORTGAGE' (using each letter once), then which of the following will be the 2nd letter from the right end of the meaningful word thus formed? If more than one meaningful word is formed, mark Z. If no meaningful word is formed, mark X.

- (a) Z
- (b) O
- (c) T
- (d) G
- (e) X

Q84. Identify the odd one out: EHL, GJM, ILO, KNQ, NQS

- (a) EHL
- (b) GJM
- (c) ILO
- (d) NQS
- (e) KNQ

Q85. In a certain code language, 'DERIVE' is coded as 'FGTLXG'. How will 'FISCAL' be coded in the same language?

- (a) HKUEBN
- (b) HKUECN
- (c) HKUDCN
- (d) HKUECM
- (e) None of these

SECTION III — QUANTITATIVE APTITUDE (Questions 86–150) Max. Marks: 65

Directions (86–90): Read the following line graph carefully and answer the questions given below. The line graph shows the total number of savings accounts (in thousands) and current accounts (in thousands) opened in five different branches of a bank.

Branch	Savings A/C (000s)	Current A/C (000s)
P	450	180
Q	320	310
R	580	150
S	270	420
T	490	260

Q86. Total savings accounts opened in branches P and T together is what percentage more or less than the total current accounts opened in branches Q and S together?

- (a) 2%
- (b) 0%
- (c) 5%
- (d) 10%
- (e) 15%

Q87. The total current accounts opened in branch X is 25% more than the total savings accounts opened in branch R. If the average total savings accounts opened in branches X, P and Q is 430 (in thousands), then find the sum of total current and savings accounts opened in branch X.

- (a) 1022.5
- (b) 1037.5
- (c) 1082.5
- (d) 1047.5
- (e) 1097.5

Q88. If the processing fee per savings account is Rs. 150 and per current account is Rs. 350, then find the total fee collected by branch S from all accounts opened (in Rs. thousands).

- (a) Rs. 1,87,500
- (b) Rs. 1,89,000
- (c) Rs. 1,87,000
- (d) Rs. 1,88,500
- (e) Rs. 1,90,500

Q89. Find the difference between the total current accounts opened in branch T and the sum of savings and current accounts opened in branch Q.

- (a) 370
- (b) 350
- (c) 330
- (d) 310
- (e) 390

Q90. 30% and 40% of the savings and current accounts opened in branch R respectively are inoperative. Find the ratio of total operative accounts in branch R to the total savings accounts opened in branches P and Q.

- (a) 37:77
- (b) 35:77
- (c) 37:79
- (d) 33:77
- (e) 37:75

Directions (91–95): Find out the missing term in the given number series.

Q91. 72, 83, 96, 112, ?, 153

- (a) 130
- (b) 131
- (c) 132
- (d) 128
- (e) 134

Q92. ?, 74, 116, 174, 252, 354

- (a) 46
- (b) 48
- (c) 52
- (d) 50
- (e) 44

Q93. 80, ?, 128, 168, 232, 328

- (a) 96
- (b) 100
- (c) 104
- (d) 88
- (e) 92

Q94. 5.4, ?, 1623.4, 2521.4, 3492.4, 4524.4

- (a) 818.4
- (b) 822.4
- (c) 812.4
- (d) 808.4
- (e) 830.4

Q95. 48, 12, 40, ?, 32, 32

- (a) 14
- (b) 17
- (c) 12
- (d) 10
- (e) 20

Directions (96–105): Solve the following arithmetic problems.

Q96. A bank offers two investment schemes A and B. Aman invested Rs. 600 in Scheme A at 8% p.a. simple interest. From the remaining amount of Rs. P, he invested in Scheme B at 12% and 18% p.a. in the ratio of 4:3 on simple interest. If he received total Rs. 780 as interest after five years, find P.

- (a) Rs. 2,400
- (b) Rs. 1,800
- (c) Rs. 3,600
- (d) Rs. 1,200
- (e) Rs. 2,000

Q97. A vessel contains milk and water in the ratio 11:9. If 200 ml of the mixture is removed and X ml of milk and 2X ml of water is added, the resultant mixture is 160 ml less than the original. Find X.

- (a) 16
- (b) 14
- (c) 12
- (d) 20
- (e) 10

Q98. A train whose length is 150 metres more than a bridge crosses the bridge in 13 seconds. If the same train crosses a tunnel whose length is 50 metres less than the bridge in 12 seconds, find the length of the train.

- (a) 200 m
- (b) 180 m
- (c) 240 m
- (d) 220 m
- (e) 260 m

Q99. The ratio of the present age of X to the age of Y three years hence is 4:5. The sum of present ages of X and Y is 52 years. Find the difference between the age of X ten years hence and the age of Y four years ago.

- (a) 18
- (b) 20
- (c) 22
- (d) 24
- (e) 16

Q100. The sum of four consecutive odd numbers and four consecutive even numbers together is 284. The smallest even number is seven less than the smallest odd number. Find the largest odd number.

- (a) 43
- (b) 45
- (c) 47
- (d) 49
- (e) 41

Q101. A person invested Rs. M at R% p.a. in Scheme A and Rs. 2M at (R+6)% p.a. in Scheme B for the same period on simple interest. If the interest received from B is four times the interest received from A, find the value of R.

- (a) 6
- (b) 8
- (c) 10
- (d) 12
- (e) 4

Q102. The ratio of cost price to selling price of Article X is 4:7. The cost price of Article Y is 30% more than the selling price of Article X. If loss on Article Y is 25% and the average selling price of X and Y is Rs. 136.5, find the cost price of Article Y.

- (a) Rs. 112
- (b) Rs. 140
- (c) Rs. 168
- (d) Rs. 196
- (e) Rs. 224

Q103. X starts from Point A towards B at 9 km/hr at 4 AM. Y starts from B towards A at 5 km/hr at 6 AM. If they meet at 11 AM, find the distance between A and B.

- (a) 70 km
- (b) 75 km
- (c) 80 km
- (d) 85 km
- (e) 63 km

Q104. 'a' and 'b' are two numbers. Sum of 'a' and 'b' is 28 and their product is 192. If 'c' is five more than the difference between 'a' and 'b' ($a > b$), find the product of 'b' and 'c'.

- (a) 81
- (b) 96
- (c) 112
- (d) 64
- (e) 72

Q105. Pipes P and Q can fill a tank in 15 hours and 25 hours respectively. Pipe R can empty the tank in triple the time taken by Q to fill it. Find the time taken by R to empty the tank filled by P and Q together in 6 hours.

- (a) 35 hrs
- (b) 40 hrs
- (c) 45 hrs
- (d) 50 hrs
- (e) 30 hrs

Directions (106–110): Read the following table carefully and answer the questions given below. The table shows the total fixed deposits (in lakhs) booked by five customers in the year 2023. The table also shows the fraction of short-term FDs (less than 1 year) booked out of the total FDs booked by these customers. Note: Total FDs = Short-term FDs + Long-term FDs.

Customer	Total FDs Booked (Lakhs)	Short-term FD Fraction
A	300	$\frac{2}{5}$
B	480	$\frac{3}{8}$

C	360	5/9
D	240	3/8
E	420	4/7

Q106. Find the ratio of total long-term FDs booked by B and E together to total short-term FDs booked by A and C together.

- (a) 41:40
- (b) 43:44
- (c) 41:43
- (d) 41:42
- (e) 43:42

Q107. Total FDs booked by D and A together is what percentage more or less than the total FDs booked by B?

- (a) 44%
- (b) 40%
- (c) 42.5%
- (d) 45%
- (e) 37.5%

Q108. Total FDs booked by F are 20% more than that of E. If the ratio of long-term FDs booked by F to B is 11:18, find the difference between short-term FDs booked by C and F.

- (a) 48
- (b) 52
- (c) 56
- (d) 44
- (e) 60

Q109. The total classic (non-renewable) FDs booked by A are one-fourth of the short-term FDs booked by E. Find the average of classic FDs booked by A and long-term FDs booked by D.

- (a) 75
- (b) 70
- (c) 80
- (d) 65
- (e) 85

Q110. The difference between long-term FDs of E and short-term FDs of C is what percentage of total FDs booked by B?

- (a) 25%
- (b) 30%
- (c) 32.5%
- (d) 37.5%
- (e) 10%

Directions (111–115): In each of these questions, two equations (I) and (II) are given. Solve both equations and give answers as: (a) $x > y$ (b) $x \geq y$ (c) $x < y$ (d) $x \leq y$ (e) $x = y$ or no relation.

Q111. I. $3x^2 - 19x + 28 = 0$ II. $2y^2 - 7y + 6 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$ or no relation

Q112. I. $12x^2 - 11x + 2 = 0$ II. $8y^2 - 10y + 3 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$ or no relation

Q113. I. $x^2 + 13x + 36 = 0$ II. $3y^2 + 14y + 8 = 0$

- (a) $x > y$
- (b) $x \geq y$
- (c) $x < y$
- (d) $x \leq y$
- (e) $x = y$ or no relation

Q114. I. $2x^2 - 21x + 19 = 0$ II. $4y^2 - y - 18 = 0$

- (a) $x < y$
- (b) $x \leq y$
- (c) $x > y$
- (d) $x \geq y$
- (e) $x = y$ or no relation

Q115. I. $6x^2 + 19x + 10 = 0$ II. $3y^2 + 23y + 44 = 0$

- (a) $x < y$
- (b) $x \leq y$
- (c) $x > y$
- (d) $x \geq y$
- (e) $x = y$ or no relation

Directions (116–120): Read the information carefully and answer the following questions. Bank A: Thirty employees earn more than Rs. Y. The number of employees earning equal to and more than Rs. Y is forty, and the number earning equal to and less than Rs. Y equals the number earning more than Rs. Y. Bank B: The number of employees earning exactly Rs. Y is double that of Bank A. The ratio of total employees in Bank A to Bank B is 2:3. The number of employees earning more than Rs. Y in Bank B is forty-five.

Q116. Find the ratio of employees earning less than Rs. Y in Bank A to those in Bank B.

- (a) 3:5
- (b) 5:4
- (c) 1:4
- (d) 3:8
- (e) 2:3

Q117. Ratio of male to female in Bank A is 2:3. Half the employees in Bank A earning more than Rs. Y are female. If 12.5% of total females earn exactly Rs. Y, find the number of females earning less than Rs. Y.

- (a) 11
- (b) 8
- (c) 10
- (d) 14
- (e) 12

Q118. Find the average number of employees earning more than Rs. Y across both banks.

- (a) 35
- (b) 37.5
- (c) 40
- (d) 32.5
- (e) 42.5

Q119. Employees earning more than Rs. Y in both banks combined is approximately what percentage more or less than employees earning less than Rs. Y in both banks combined?

- (a) 53%
- (b) 33%
- (c) 23%
- (d) 63%
- (e) 43%

Q120. Total employees earning exactly Rs. Y in both banks are what percent of total employees in Bank B?

- (a) 10%
- (b) 15%
- (c) 20%
- (d) 25%
- (e) 30%

Directions (121–130): Solve the following problems.

Q121. A boat covers 54 km downstream in 2T hours and takes T hours to cover (D – 300) km in still water. If the speed of the boat in still water is five times the speed of the current, find D.

- (a) 650
- (b) 620
- (c) 680
- (d) 700
- (e) 710

Q122. P, Q and R together can complete a work in 12 days. Q alone can do the work in 36 days. If P alone takes 20 days less than R, in how many days can R complete 60% of the work?

- (a) 24 days
- (b) 18 days
- (c) 36 days
- (d) 30 days
- (e) 27 days

Q123. The average of four numbers P, Q, R and S is 25. P is 30% less than R. The ratio of Q to R is 5:4 and the average of P, R and S is 24. Find the difference between Q and S.

- (a) 15
- (b) 20
- (c) 13
- (d) 18
- (e) 17

Q124. A and B started a business with investments of Rs. x and Rs. $(x + 1200)$ respectively. After nine months, B withdrew from the business. At the end of the year the total profit is Rs. 2100 and B's share is Rs. 300 more than A's. Find the value of x .

- (a) Rs. 1050
- (b) Rs. 1100
- (c) Rs. 950
- (d) Rs. 1000
- (e) Rs. 1200

Q125. Two trains M and N start from stations X and Y respectively. Speed of train N is 18 km/hr more than train M. Distance between X and Y is 468 km. If both trains meet in 5 hours 12 minutes, find the speeds of M and N (in km/hr).

- (a) 36, 54
- (b) 33, 51
- (c) 39, 57
- (d) 42, 60
- (e) 30, 48

Q126. X spends 15% of monthly income on insurance, 25% on rent, 20% of the remaining on food. He then spends 100/9 % of the remaining on transport and saves Rs. 5,400. Find his monthly income.

- (a) Rs. 12,000
- (b) Rs. 10,000
- (c) Rs. 14,400
- (d) Rs. 9,600
- (e) None of these

Q127. Two types of tea costing Rs. 120 per kg and Rs. 180 per kg are mixed in the ratio 2:3 and sold at Rs. 195 per kg. Find the profit percentage.

- (a) 25%
- (b) 30%
- (c) 20%
- (d) 15%
- (e) 35%

Q128. A bag has 7 red and 6 green balls. If two balls are picked at random, what is the probability that both balls are of the same colour?

- (a) 7/13
- (b) 6/13
- (c) 5/13
- (d) 8/13
- (e) None of these

Q129. The sum of the area of a circle and the area of a square is 2716 sq. cm. The radius of the circle is 28 cm. What is the difference between the circumference of the circle and the perimeter of the square, if the side of the square is 35 cm?

- (a) 36 cm
- (b) 24 cm
- (c) 48 cm
- (d) 16 cm
- (e) None of these

Q130. 18 men can do a piece of work in 20 days and 30 women can do the same work in 15 days. With the same efficiency, 15 men and 24 women can do another piece of work in ' $(Z - 5)$ ' days and ' Z ' days respectively. Find the value of Z .

- (a) 42
- (b) 44
- (c) 40
- (d) 38
- (e) 46

Directions (131–135): Read the following pie chart carefully and answer the questions given below. The pie chart shows the percentage distribution of total loan disbursements by a bank across five different sectors. Note: Total loan disbursement in the Agriculture sector = Rs. 192 crore.

Sector	% of Total Disbursement
Agriculture	20%
MSME	30%
Housing	25%
Infrastructure	15%
Retail	10%

Q131. Total disbursement in the MSME and Retail sectors together is how many crore more or less than disbursement in the Housing and Infrastructure sectors together?

- (a) Rs. 96 crore more
- (b) Rs. 96 crore less
- (c) Rs. 192 crore more
- (d) Rs. 48 crore more
- (e) Rs. 48 crore less

Q132. If the total disbursement in the Education sector (not shown) is 40% less than that in the MSME sector, find the average disbursement in the Education and Agriculture sectors.

- (a) Rs. 168 crore
- (b) Rs. 180 crore
- (c) Rs. 156 crore
- (d) Rs. 192 crore
- (e) Rs. 144 crore

Q133. 40% of loans disbursed in the Housing sector are floating-rate, and the remaining are fixed-rate in the ratio 3:2. Find the ratio between the fixed-rate and floating-rate loans in the Housing sector to the total disbursement in the Agriculture sector.

- (a) 7:16
- (b) 9:16
- (c) 8:11
- (d) 5:8
- (e) None of these

Q134. Find the central angle representing the average disbursement in the MSME and Retail sectors (in degrees).

- (a) 90°
- (b) 108°
- (c) 72°
- (d) 144°
- (e) 216°

Q135. If 50% and two-thirds of disbursements in MSME and Agriculture respectively are recovered, then the total unrecovered amount in Agriculture is what percentage of total unrecovered amount in MSME?

- (a) 33.33%
- (b) 22.22%
- (c) 66.67%
- (d) 44.44%
- (e) 11.11%

Directions (136–140): Solve the following problems.

Q136. A boat covers D km downstream in $3T$ hours and takes T hours to cover $(D - 480)$ km in still water. If the speed of the boat in still water is seven times the speed of the current, find D.

- (a) 770
- (b) 700
- (c) 840
- (d) 910
- (e) 630

Q137. A, B and C together complete a task in 8 days. B alone takes 24 days. If A alone takes 12 days less than C, in how many days can C complete 40% of the same work?

- (a) 16 days
- (b) 14 days
- (c) 12 days
- (d) 10 days
- (e) 18 days

Q138. The average of three numbers X, Y and Z is 30. X is 20% less than Z. The ratio of Y to Z is 7:5 and the average of X and Z is 28. Find the difference between Y and X.

- (a) 16
- (b) 20
- (c) 24
- (d) 18
- (e) 22

Q139. P and Q invest Rs. a and Rs. (a + 1500) in a business. After 10 months, Q exits. At the end of the year the total profit is Rs. 2250 and Q's share is Rs. 450 more than P's. Find a.

- (a) Rs. 1350
- (b) Rs. 1500
- (c) Rs. 1200
- (d) Rs. 1050
- (e) Rs. 1250

Q140. Two buses start from cities X and Y towards each other. Bus B's speed is 16 km/hr more than Bus A. Distance between X and Y is 576 km. If they meet in 6 hours, find the speeds of A and B (in km/hr).

- (a) 44, 60
- (b) 40, 56
- (c) 48, 64
- (d) 36, 52
- (e) 42, 58

Directions (141–145): Study the following information carefully and answer the questions. Eight employees A–H hold different positions: Chief Risk Officer (CRO), Chief Compliance Officer (CCO), General Manager (GM), Deputy General Manager (DGM), Assistant General Manager (AGM), Senior Manager (SM), Manager and Assistant Manager — in decreasing order of seniority (CRO being the most senior). There are two designations between H and B. There is at most one designation between B and G. H is senior to B. As many persons between H and G as are junior to B. G is not just senior to B. D is three designations senior to G. Number of persons junior to G is one less than number of persons senior to C. As many persons between H and D as between H and A. There are two designations between C and F. F is junior to B.

Q141. What is the designation of E?

- (a) Senior Manager
- (b) Manager
- (c) Assistant Manager
- (d) Assistant General Manager
- (e) None of these

Q142. How many designations are there between A and B?

- (a) More than three
- (b) Three
- (c) One
- (d) Two
- (e) None of these

Q143. Which among the following statement(s) is/are true? I. A is the most senior person. II. B is three designations senior to E. III. No one is junior to E.

- (a) Only II
- (b) Only I
- (c) Both I and II
- (d) All are true
- (e) None of these

Q144. Who is designated as Senior Manager?

- (a) A
- (b) G
- (c) H
- (d) F
- (e) None of these

Q145. If all persons are ranked in alphabetical order from junior-most to senior-most, how many persons remain at their same designation?

- (a) One
- (b) Two
- (c) Three
- (d) None
- (e) None of these

Directions (146–150): Solve the following problems.

Q146. Identify the odd one out: FIM, HKN, JMP, LOR, NSV

- (a) FIM
- (b) HKN
- (c) LOR
- (d) NSV
- (e) JMP

Q147. If we form a four-letter meaningful word using the 2nd, 5th, 6th and 7th letters of 'BANKING' (using each letter once), which of the following will be the 2nd letter from the right end? Mark Z if more than one meaningful word is formed; X if none.

- (a) Z
- (b) N
- (c) I
- (d) G
- (e) X

Directions (148–150): In a certain code language: 'Repo rate hike signals' → '8R@ 4V\$ 10Q@ (I)' 'Mostly new (II) activated' → '10R@ 4H@ 10F@ 8U\$' 'Liquidity source adjusted recently' → '6Q\$ (III) 12D@ 12H@'

Q148. What comes in (I)?

- (a) 8H\$
- (b) 10E\$
- (c) 8H@
- (d) 12H@
- (e) None of these

Q149. What comes in (II)?

- (a) Short
- (b) Profile
- (c) Surplus
- (d) Sale
- (e) Picture

Q150. If 2 is subtracted from all the digits of '@9#2\$5%7*6&8' and then @ is replaced by 3, # by 2, \$ by 6, % by 5, * by 7 and & by 4, what will be the sum of the 2nd and 7th digits from the left after rearrangement?

- (a) 16
- (b) 19
- (c) 10
- (d) 12
- (e) 15
